

IN-HOME COLOR CONSULTATION

Creating calming environments for your family to live in, one color at a time.

Our “In-Home” color consultation service, provides a service that we are well known for throughout New England, which is creating calming and harmoniously integrated environments to enhance the way you live.

While selecting colors for your home can be overwhelming and wrong colors are an expensive and time – consuming mistake, let us make the process easy for you. With an in-home color consultation, we will provide you with 1 traveling wall color, 3 room colors, 1 ceiling and trim color and 1 accent color. That is 6 colors for your whole house in one in-home color consultation.

The investment for an In-Home Color Consultation starts at \$1000.00 with additional colors at \$165.00 each.

Let us help you create a beautiful color pallet for your home. We have the experience to accentuate what is important to your home’s interior and exterior architectural features.
